

## RECOMMENDED FOR ALL ICE MAKERS RESTARTING AFTER COVID-19

- 1 Replace water filter cartridge before turning on the water.
- 2 Open the ice maker. Disassemble all removable components in the ice zone and wash/sanitize to remove all mold, mildew, and algae.
- 3 Clean and sanitize the storage bin or dispenser along with all ice scoops, ice buckets and transport equipment.
- 4 Restore all components.
- 5 Turn the water on.
- 6 Turn the power to the machine on if previously turned off.
- 7 Press the power button or switch to run two or three batches of ice. **Discard this ice.**
- 8 Run the machine through Ice-O-Matic's recommended cleaning and sanitizing procedures.
- 9 Start normal ice production and allow to run for up to twenty-four hours prior to reopening.
- 10 Call your authorized Ice-O-Matic service agent for professional cleaning and sanitizing or if the machine needs maintenance.
