INSTRUCTIONAL LABEL ADDITION TO BAR GUN

Technical Bulletin Reference No. 0401-0001

To help distinguish and prevent damage to the Schroeder America Bar Gun Handle, a new instructional label has been created and implemented on both sides of the handle, just above the nozzle.

The Schroeder America Bar Gun Nozzle is to be removed by twisting the nozzle to the unlocked position and then pulled off without resistance.

WARNING
ATTEMPTING TO PULL OFF THE NOZZLE WITHOUT FIRST TWISTING TO THE UNLOCKED POSITION WILL CAUSE DAMAGE TO THE BAR GUN.
