

Accuflex *Bev-Seal* ULTRA® Beverage Transfer Products

Bev-Seal Ultra® Cabled Barrier Hose Bundle

The Accuflex Cabled Hose Bundles shown here are constructed using Accuflex 175 Series *Bev-Seal* ULTRA® hose, which is approved by major beverage companies.

Bev-Seal ULTRA® beverage hose features our exclusive **Glas-Flex™** inner layer . . . providing a truly flushable, Dual-Barrier product that allows quick flavor changes, including pungent flavors. This feature is especially important in bundled hoses, because beverages in the close-packed hoses need the extra protection our Dual-Barrier construction provides.

The *Bev-Seal* ULTRA® Dual-Barrier construction also protects oxygen-sensitive beverages, such as juices, from flavor degradation.

Bev-Seal ULTRA® is the only product that is constructed with two barrier layers to ensure that your customers can enjoy the true flavor of their beverages.

Part Number	Standard Package	Description & Configuration		Max. Bundle OD	Weight per Pkg		Minimum Bend Radius (In.)
		Red Extruded Jacket — Film Wrapped	(All hoses are <i>Bev-Seal</i> ULTRA® construction)		lbs.	kgs.

Accuflex *Bev-Seal* ULTRA® Beverage Transfer Products

Bev-Seal ULTRA® beverage hose features our exclusive **Glas-Flex™** inner layer . . . providing a truly flushable, Dual-Barrier product that allows quick flavor changes, including pungent flavors.

Our **Glas-Flex™** liner provides a barrier that is flushable, glass smooth (reducing cavitation), non-porous, non-reactive, taste-free, FDA-Sanctioned and NSF-51/NSF-61 Certified.

Laboratory tests using both analytical and sensory techniques have demonstrated that **Bev-Seal ULTRA®** products assure that the great original flavor is not altered or compromised by the hose, even over extended periods.

Bev-Seal ULTRA® is the only product that is constructed with two barrier layers to ensure that your customers can enjoy the true flavor of their beverages. The **Bev-Seal ULTRA®** Dual-Barrier construction also protects oxygen-sensitive beverages, such as juices, from flavor degradation.
