# LUXUS<sup>®</sup> Thern

The ultimate in thermal retention of hot and cold beverage  
Available in 1 & 1.5 & 2 gallon sizes and six custom colors

## Versatility

Whether to identify flavors, provide contrast or to enhance ambience, equipment offered in colors provides versatility and a professional appearance. That's why FETCO introduces six custom color options for its new thermally insulated LUXUS<sup>®</sup> beverage dispensers.

## Reliability

LUXUS<sup>®</sup> thermal dispensers provide the ultimate in a hot and cold beverage dispensing system. Manufactured in the USA, these durable stainless steel lined dispensers are the result of FETCO's technological advances in thermal dynamics. Remove the hazards of utilizing glass lined products without the loss of performance, while adding the durability of stainless steel.

## Portability

Designed to extend beverage holding temperatures in volumes of 1 to 2 gallons, these attractive and versatile dispensers are totally portable and do not require electrical power. Once filled and capped, they can be taken anywhere to provide self serve or staff operated beverage service... indoors, outdoors, on different floors, or placed throughout a restaurant, hotel or office for hours of reliable service.

## Functionality

In addition to the multitude of functional and trend setting features such as Shank-Less<sup>™</sup> faucet, Lock-n-Grip<sup>™</sup> handle and no loose parts, FETCO offers LUXUS<sup>®</sup> modular serving stands. Present multiple beverages on attractive stainless steel displays for single, twin, or triple in-line configurations. The versatility offered by this modular approach provides for attractive point of purchase merchandising, as well as interior signature presence.

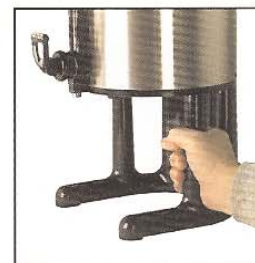

Lock-n-Grip<sup>™</sup> handle provides rigid support during transporting and folds down during the filling process.

The snap-release and fill-through lid provides reliable security and spill-free transportation.

Shank-Less<sup>™</sup> Faucet improves thermal performance, especially for small cup portions.

Built-in handles provide sure and quick transport to remote serving stations.
