**Phthalate
FREE**

Kuri Tec[®]

ALL TIGERFLEX™ AND KURI TEC® FOOD GRADE HOSES ARE NOW PHTHALATE FREE!

What does this mean?

Tigerflex™ and Kuri Tec® food grade hoses are now manufactured from all phthalate free materials. As a leading manufacturer of hoses for the food & pharmaceutical industries, our food grade hoses have always used extremely high purity PVC materials, meeting various FDA, NSF, USDA and 3A standards. The hoses will still maintain all their previous standards, but with the added benefit of now being phthalate free at no additional cost.

Why did we do it?

Due to the growing desire in the food processing and pharmaceutical industries to use products that do not contain phthalates, we've taken the industry leading position of eliminating them from our entire line of food grade Tigerflex™ and Kuri Tec® products. As always, we strive to provide our customers with the highest purity products as you've come to expect from Kuriyama.
