

## SI-10

### ADVANCED SCALE CONTROL

This Aquamor Foodservice Scale Inhibitor is a replaceable scale control cartridge specifically engineered to protect equipment such as ice makers; coffee and vending equipment from scale build up. Designed to prevent hard scale formation which causes reduced efficiency, increased equipment downtime and expensive service calls. Its unique design and media blend ensures proper scale control and corrosion protection at both low and higher flow applications.

## FILTER FEATURES

- Extends the life of expensive foodservice equipment
- Reduces the need for aggressive acid de-scaling
- Reduces equipment servicing and down time
- Specifically designed for advanced scale and corrosion control
- Economical alternative to expensive filter substitutes
- NSF and/or FDA CFR 21 compliant materials

## SPECIFICATIONS

<b>Dimensions (SI-10):</b>	10" H x 1.43" Diameter
<b>Dimensions (SI-8):</b>	8" H x 1.43" Diameter
<b>Operating Pressure:</b>	25-125 psi (1.7-8.6 bar)
<b>Operating Temperature:</b>	35-100°F (1.7°C - 38°C)
<b>Service Flow Rate:</b>	0.1 - 6 gpm
<b>Capacity:</b>	Inspect or replace every 6 Months

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
